SOUTH BEACH
DENTAL INSTITUTE

Welcome

TO DENTAL CE IN
PARADISE

The best HANDS ON dental training program with live surgical patients. You no longer have to learn on cadaver mandibles or Styrofoam blocks, you will actually be performing surgery on live surgical patients.

Upon completion, you will be able to immediately apply your experience of learning on live patients into your own practice. As a result, you can increase your overall production and better serve your patients with confidence.

Course Description

This unique 2-day implant training program teaches proven implant surgery techniques that will be performed HANDS ON with live surgical patients.

The class size is limited to ensure maximum surgical training.

Course Highlights

- Learn proven dental implant placement techniques
- Place implants on live surgical patients
- Learn techniques to improve implant case acceptance
- Immediate experience with live patients
- Small class size
- Increase office production
