

# Mini-Implant Certificate Seminar

**\$195 Tuition**

SOUTH BEACH DENTAL INSTITUTE

**Atlanta, GA - July 17, 2010**  
**Washington, DC - July 31, 2010**

This Mini-Implant Certification Seminar is designed for dentists who want to expand their practice regimens by adding a minimally invasive implant system as a definitive solution for patients' loose dentures/partials or crown & bridgework. This hands-on course emphasizes treatment planning, case selection, implant placement protocol, restorative techniques and marketing strategies.

**Course Objectives:**

- Learn the benefits of immediate loading on mini dental implants
- Understand maxillofacial anatomy as it pertains to minimally invasive implantology
- Recognize the indications and contraindications for the use of mini-implants
- Learn minimally invasive placement protocols and simple restorative techniques to stabilize lower dentures/partials as well as crown & bridge applications.
- Understand what is unique and different about mini implant placement in the maxilla
- Practice the implant placement protocol on a realistic anatomical mandible model
- Learn successful case selection and case planning strategies
- Learn proper approaches to post-operative care
